MEMORANDUM FOR All U.S. Army Dental Command Personnel

SUBJECT: U.S. Army Dental Command (DENCOM) Policy 04-16,  
Standardization of Dental Classifications

1. REFERENCE:

- a. HA Policy 02-011, Policy on Standardization of Oral Health and Readiness Classifications.
- b. Department of Defense Policy 96-023, Policy for Dental Readiness Within The Services.
- c. AR 40-3, Chapter 6, Medical, Dental, and Veterinary Care.

2. SCOPE: This policy applies to all DENCOM facilities and all personnel assigned to or working in those facilities.

3. POLICY:

- a. The nomenclature and definitions as described in HA Policy 02-011 will be used to classify the dental fitness of service members.

- b. In accordance with Department of Defense Policy 96-023, service members will convert to a dental class 4 status on the last day of the thirteenth month from the last date of treatment by a dentist. The following points will clarify the thirteenth month conversion date:

- (1) Conversion to dental class 4 based on the last date of treatment by a dentist is consistent with the intent of Health Affairs Policy 98-021. At the conclusion of every treatment or examination, dentists complete block 17 of SF 603/603A and enter a readiness classification. Therefore, they are indicating performance of a readiness examination sufficient to determine classification.

MCDS

SUBJECT: U.S. Army Dental Command (DENCOM) Policy 04-16,  
Standardization of Dental Classifications

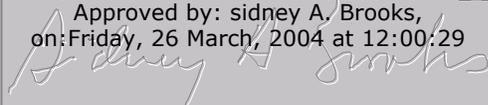

(2) CDA automatically updates classification by assigning a code of A9999 when the service member is seen by a dentist.

(3) For quality assurance purposes, it is recommended that dentists include the statement, "Readiness Update" in block 17 along with other services provided.

(4) The date and initials of the dentist performing an initial, periodic or comprehensive evaluation will continue to be annotated in pencil in block 16 of SF 603/603A. This annotation should be changed only when DOD codes 00120 or 00140 are taken.

c. Dental records will be reviewed at each treatment appointment to determine date of last Periodic Oral Evaluation. Patients with exam dates that are at least ten months old will receive a Periodic Oral Evaluation prior to dismissal from the treatment appointment. All dentists, to include specialists, will be actively involved in meeting this requirement.

d. Each dental treatment facility will employ suspense system(s) that enable adequate notification to allow service members an opportunity to seek an exam appointment prior to dental class 4 conversion.
